MarvellousMe's Role as 'Data processor'.

Please accept this letter as confirmation of my company's role and obligations as the 'Data processor', to set up and maintain the MarvellousMe solution at your school.

We treat all data provided by our customers in strict confidence and only use the minimum data necessary for the delivery and support of the MarvellousMe product.

As such, we will not pass any data on to any third party unless it's absolutely necessary for the provision of our solution, or unless we are required to do so by law.

Finally, we encrypt all content to industry standards, robustly log all activity on the platform and take every reasonable measure available to protect it from existing and evolving threats.

Please let me know if you have any further questions.

Kind regards

A handwritten signature in brown ink, appearing to read "Adrian Burt".

Adrian Burt
Director, MarvellousMe Limited.
